THREE

REQUIREMENTS

SVP Dashboard is a Microsoft Windows application. The following items are required to install and run the dashboard:

- 64-bit Microsoft Windows operating system: Microsoft Windows 7, or later
- current version of one of the following web browser:
 - Mozilla Firefox
 - Microsoft Edge
 - Google Chrome

You can get the SVP Dashboard installer from SunSpec Alliance with the file name:

svp_dashboard_setup_<version>.exe

Save the file in a local directory.

FOUR

INSTALL SVP DASHBOARD

These steps walk you through the SVP Dashboard installation.

- 1. Double-click the SVP Dashboard installer program to start the installation.
- 2. Accept the license agreement and click Next:

License Agreement

Please read the following important information before continuing.

Please read the following License Agreement. You must accept the terms of this agreement before continuing with the installation.

4. Click **Install** to start the Windows installation:

The installer displays a progress bar to indicate the installation status.

5. When installation completes, select the checkbox to run SVP Dashboard immediately. Click Finish:

Completing the SVP Dashboard Setup Wizard

Setup has finished installing SVP Dashboard on your computer. The application may be launched by selecting the installed shortcuts.

Click Finish to exit Setup.

Launch SVP Dashboard

FIVE

LICENSE SVP DASHBOARD

Run the installed SVP Dashboard program to license your product instance.

1. If you have not elected to automatically run the dashboard following installation, run SVP Dashboard either from the file manager by double-click the SVP Dashboard executable program, or by using the desktop shortcut. This displays the SVP Dashboard welcome page:

Welcome to the SunSpec System Validation Platform (SVP) Dashboard.

As a valued Member of the SunSpec Alliance and an early adopter of this technology, your feedback will contribute to the future development of SVP Dashboard and will be reflected in upcoming releases.

Use your web browser to access the local SVP Dashboard user interface at:

http://localhost:8444

- 2. The dashboard graphical user interface (GUI) runs in the web browser served from localhost port 8444. Click the URL at the bottom of the page to access the SVP Dashboard GUI.
- 3. In the SVP Dashboard menu bar Help menu, select About:

SVP DASHBOARD	Device	Tests	Tools	Help	
				User Guide	-
				About	

4. The About SVP Dashboard dialog displays version and licensing information:

About SVP Dashboard	
Version:	2.0.7
Dashboard ID:	382b-044a-0846-c440
Licensed To:	Unlicensed
License Expires:	11/15/2020

Record the **Dashboard ID**. You will need to provide this ID to Sunspec Alliance to get the license file.

- 5. Contact Sunspec Alliance to get the license file, providing the dashboard ID for your copy of SVP Dashboard.
- 6. After you download and save the license file, select **Update License** to begin the process of installing the license for your copy of SVP Dashboard:
